

The City of Mattoon is committed to keeping you informed about the quality of your drinking water. The Consumer Confidence report is provided on an annual basis to inform you as to where your drinking water comes from, the constituents found in your drinking water, and how the water quality compares with regulatory standards. We are proud to report that during the year 2008, the drinking water provided to you met or surpassed all Federal and State drinking water standards. As always, the City further remains committed to providing you with a reliable supply of high quality drinking water.
